Chewable Food Supplement

Drone Brood Jelly

A natural product that TENTORIUM® has pioneered in use, is based on a unique ingredient - drone homogenate. A natural source of proteins helps increase physical activity, stimulate the production of sex hormones and harmonize sexual relationships. Drone brood jelly has a positive effect on libido and sexual vigor helps balance hormones in the human body.

Ingredients: Drone brood (homogenate).

Directions for use: Take 1 teaspoon of the chewable 2 times a day (in the morning and in the afternoon) 30 minutes before meals.

Tentorium Plus

This is a basic chewable used as a supplement to the wholesome diet of the entire family. The basis of the chewable is top-quality bee pollen. Thanks to specific enzymes of pollen pellets – DNA-reducing nucleases – the chewable is beneficial to everyone: it contributes to children’s physical growth, helps adults restore vital forces, and strengthens the immune system and increases resistance of the body to adverse environmental factors. Tentorium Plus chewable contains all basic vitamins, micronutrients, enzymes, nucleic acids and amino acids.

Ingredients: Pollen (pellets), propolis extract, beeswax.

Directions for use: Take 1 teaspoon of the chewable 2 times a day before noon 30 minutes before meals.

 TENTORIUM PLUS	300G	32	L36 X W30 X H22

Khlebina

The chewable based on bee bread and honey has antisclerotic effect, and restores function of the cardiovascular, digestive and endocrine systems. This is a purpose-specific and clinically approved nutrition product developed for athletes.

Ingredients: Beebread, honey, beeswax.

Directions for use: Take 4 chewables 3 times a day. To gain weight, take them 30 minutes before meals. To maintain weight, take them right after meals. Expert comment: The chewable is recommended as a natural component of a diet intended to regulate gut microflora and function of the liver, thyroid gland, kidneys, lungs, heart, and prostate gland, and their regeneration.

APV

A-P-V is a propolis aqueous extract made of water and natural pure propolis that has antimicrobial, antifungal and antiviral effects. A unique technology of extraction of cinnamic acids from propolis is used at our factory. Balm has a distinct antiviral effect and it helps fight influenza, Herpes simplex and hepatitis viruses, helps the body resist pathogenic agents of gastric and duodenal ulcer, helps cure cold when its first symptoms appear, and protects the human body from microbial invasion. Due to exceptional antimicrobial properties of propolis it perfectly suits for both, internal and external use. As for external use, the product is very helpful in fighting dental and gums inflammations, also in healing bruises and cuts. Natural multi-purpose products do not contain alcohol and are absolutely safe for adults and children, pregnant women and drivers.

Ingredients: Natural propolis, ionized purified water

Directions for use: Take 1 dessert spoon of the balm 3 times a day 20 minutes before meals; or External Use: in the form of applications.

Honey Blends

(Honey mixed with bee products)

TENTORIUM® / Honey Blends (Honey mixed with bee products)

“Gold Bar” Api-snack

This product is Russia’s first api-snack containing all known gifts of nature found in a beehive.

Positive effects of this natural complex of vitamins and micronutrients contained in bee products and herbal components are the following:

- Protects the body against stress – it improves stress resistance, and provides additional support during infectious epidemics and seasonal immune deficiency;
- Reduces the risk of a heart attack and stroke;
- Helps the body fully recover during sleep when under stress;
- Gives energy boost for the whole day. Clinically proven product.

Ingredients: Beebread, propolis, royal jelly, pollen, pine nuts, sunflower seeds, mumio, Siberian ginseng, flaxseed, chitosan, honey
Directions for use: Divide 1 pack of “Gold Bar” into two equal parts and take one part in the morning and the other one in at lunchtime.

Revitalizing Skin Care and Massage creams

Extreme Cream

The cream with honey bee venom and Badiaga sponge is intended for treating consequences of injuries, sprains, and minor muscle and connective tissue injuries. Thanks to its immediate effect, the cream is a perfect first-aid remedy for injuries during sports and outdoor activities. The cream was tested by fishermen and hunters in extreme conditions. Badiaga and bee venom help to quickly get rid of bruises, swelling and pain. Calendula extract protects the skin and relieves irritation. Pine needle paste has prominent antiseptic effect.

Ingredients: bee venom, beeswax, Badiaga sponge, chlorophyll-carotene pine needle paste, horse chestnut and calendula extracts.

Directions for use: Apply a small amount of the cream to damaged skin areas (bruises, hematomas, or sprain). Do not apply to wounds.

Curious Facts: Traditional wild-hive beekeepers have an extraordinary custom. They unleashed a swarm of bees on those who were unlucky to fall down from a tree or who managed to fight for honey with a bear. After that they washed the poor fellows in different herbal decoctions, coated them in wax, dressed them in pine needles and let them lay for a few days. Benefits of such therapy were astounding! When the pine needle dressing was removed, no bruises or hematomas were visible on the skin. Nevertheless, however beneficial this method may be, it's also very painful. EXTREME Cream heals minor injuries quickly and without pain!

Tentorium Cream

This classic multipurpose cream with bee venom helps recover after physical stress, relieving muscle pain. It also has a general health-promoting effect on the human body. The cream softens and nourishes the skin and perfect for therapeutic, health-improving and sports massage. The powerful effect is ensured by one of the active components – honey bee venom or apitoxin. Honey bee venom is the most powerful and efficient bee product. Even in minor concentrations it has a strong effect on the human body. When combined with other most beneficial bee products, bee venom in small amounts improves blood circulation and vital tonus. Massage with Tentorium Cream relieves muscle fatigue and pain, restores joint mobility and facilitates muscle rehabilitation after intensive physical exercises.

Ingredients: Propolis extract, honey bee venom, beeswax, horseradish extract, linden blossom CO2-extract, camphor oil.

Directions for use: The cream is recommended for use in massage procedures.

Royal Jelly With Genistein In Dark Chocolate

The product gives beauty and youth from the inside thanks to the effective combination of royal jelly in an unprecedented high concentration (whole mother liquor (300 mg) in one plate) and genistein - a plant analogue of female sex hormones. In synergy, two natural components provide a significant anti-aging estrogenic effect, significantly slowing down the aging process. Royal jelly helps to maintain the beauty and healthy appearance of skin, hair and nails, increases energy potential and mood. Genistein, replenishing the deficiency of female sex hormones, relieves menopause symptoms, improves skin condition, and reduces the risk of developing tumors and osteoporosis. Bitter chocolate without added sugar guarantees the perfect preservation of all the beneficial properties of the active ingredients.

Ingredients: Royal jelly, genistein, ground cocoa, cocoa butter.

Directions for use: Adults: Take one piece of chocolate a day during 4 weeks.

Product Detail

	PRODUCT	SIZE	UNITS P/CASE	CASE DIMENSION (CM)
	ROYAL JELLY WITH GENESTEINE	30G	36	L30 X W22 X H12

Anti Age Complex

Face Serum

Scientific research in the field of epigenetics allowed the creation of an exclusive component for anti-age cosmetic products. This ingredient, called Royal Epigen, is based on royal jelly, which effectively fights age-related skin changes and regenerates and rejuvenates the skin. When used regularly, the facial serum smoothes out wrinkles, makes the facial skin significantly firmer and more elastic, and slows ageing processes.

Active ingredients: bee venom, royal jelly peptide, hyaluronic acid, Shea butter, vitamin E (tocopherol).

Directions for use: Apply serum along massage lines on clean skin of the face avoiding eye area, and distribute it evenly. The product should be used in the morning and in the evening.

Product Detail

	PRODUCT	SIZE	UNITS P/CASE	CASE DIMENSION (CM)
	FACE SERUM	30ML	81	L32 X W30 X H13

Eye Serum

The serum instantly smoothens out small wrinkles in the corners of the eyes, as if they are erased after “beauty injections”. The serum evens out the skin intensively and, at the same time keeps a natural look on the face.

Accumulative effect of the serum becomes obvious if the product is used regularly. And it becomes even more effective when used in combination with other Anti-Age beauty products containing bee venom, peptides and herbal extracts.

The effects of this serum active component are clinically proven. The combination of bee venom, royal jelly peptide and a cone snail peptide helps moisturize and rejuvenate the delicate eye skin area and contributes to removal of dark circles under the eyes. The cone snail peptide helps to relax the muscle without temporarily paralyzing it, like Botox injections do, which allows you to get a natural result, smooth out wrinkles and keep natural facial expression.

Active ingredients: bee venom, royal jelly peptide, cone snail peptide, hyaluronic acid, elder blossom extract, Shea butter

Directions for use: Apply 1 serum drop to clean skin around the eyes and distribute it evenly in gentle motions. The product should be used in the morning and in the evening

	EYE SERUM	15ML	110	L32 X W30 X H13

Repair Complex Cream

A unique combination of bee venom, royal jelly peptide and exotic plant extracts gives a significant anti-aging effect. The effect produced by the components of the cream reduces pigmentation of mature skin, evens out its natural complexion, smoothens and whitens the skin without affecting hormonal mechanisms, especially during menopause. The cream promotes synthesis of collagen, increases skin firmness and elasticity, activates the processes of cell renewal and skin rejuvenation. Regular use of the product significantly reduces the depth of the nasolabial wrinkles, tightens facial contours, reduces the effect of saggy skin, and helps women maintain their natural beauty at any age. The product does not contain perfume agents, aggressive preservatives or parabens

Active ingredients: bee venom, royal jelly peptide, hyaluronic acid; Arjuna bark, Morinda citrifolia seed, white water lily, aloe extracts; sesame, macadamia, argan, wheat germ oils; panthenol

Directions for use: Apply cream along massage lines on dry and clean skin of the face. The product is recommended for everyday use.

Chewing Propolis Wax With Ginger

A completely natural product for the protection of the oral cavity. Suitable for people of all ages.

With daily use, the product:

- Protects the oral cavity from pathogenic microbes, viruses and bacteria, effectively disinfects the oral cavity;
- Cleans teeth from plaque and food debris;
- Helps to strengthen the enamel, prevents the development of caries;
- Protects the gums from inflammation and bleeding;
- Facilitates the course of ENT diseases and upper respiratory tract;
- Improves the digestive tract;
- Strengthens local immunity;
- Reduces the urge to smoke;
- Freshens breath.

The product helps to produce saliva by enriching it with essential oils, flavonoids, bioflavones and cinnamic acids. In saliva, under the influence of enzymes, useful propolis and wax components directly enter the bloodstream, fully absorbed by the body.

Hypoallergenic product. Safe to swallow. Does not contain sugar. It is not a drug.

To achieve the maximum healing effect, we recommend chewing at least twice a day for 10-15 minutes. During periods of viral infections, increase the consumption of the product.

Contraindications: individual intolerance to the components of the product

Expiration date: 9 months.

Tentorium Ultra

"The effect of applying the cream is similar to the bee sting procedure. Bee venom together with an acupressure massage on biologically active points improves vascular tone and blood micro-circulation.

With regular use, acupuncture massage with Tentorium Ultra cream:

- Improves visual acuity
- Relieves eye fatigue and strain
- Prevents age-related changes in vision
- Helps smooth fine wrinkles and improve skin condition

Ingredients: sunflower oil, beeswax, horseradish extract, purified water, propolis extract, bee venom, CO2 extract of linden flowers

Directions for use: Apply a small amount of the cream to biologically active points (indicated on the package) and massage with the tip of the dispenser or with your finger 2 times a day for 1 minute. Course - from 1 month. Frequency of application - 3 times a year (autumn, winter and spring). For children and adolescents, the use of Tentorium Ultra cream must be under the supervision of adults during the test for the absence of an allergic reaction.

Proven that after a month of using Tentorium Ultra cream*:

92% of respondents noted a decrease in fatigue and eye strain and, as a result, a decrease in headaches.

67% noted an improvement in contrast and clarity of visual perception, due to the elimination of dry eye syndrome and improved functioning of the lacrimal canal.

* Based on tests carried out in an ophthalmological clinic, 2020

Not recommended for intolerance to product components

Store in a place protected from sunlight at temperatures from 0 ° C to + 25 ° C. Shelf life 12 months."
